BWB CON

Blockchain Without Borders Conference

Delta State University, Abraka

Sponsorship & Partnership Proposal

Executive Summary

Blockchain Without Borders (BWB) is a continent-wide blockchain adoption and user onboarding initiative designed to drive mass literacy, real-world usage, product exhibition, brand visibility, and ecosystem growth across Africa.

The BWB Campus Conference Edition targets Africa's largest and most scalable market: students and young professionals. By bringing blockchain education, live product demonstrations, and onboarding directly to campuses, BWB creates immediate user acquisition, long-term loyalty, and high-impact brand visibility for partners.

For sponsors, BWB offers a direct channel to:

° Onboard thousands of new users
° Drive wallet, exchange, and app adoption
° Build early loyalty in a high-growth demographic
° Position brands as leaders in Africa's blockchain future

About Blockchain Without Borders (BWB)

Blockchain Without Borders is an Africa-focused education, awareness, and adoption campaign that moves blockchain beyond speculation into everyday utility.

The conference connects blockchain networks, exchanges, wallet providers, and payment platforms with:

° Students
° SMEs
° Creators
° Developers
° Everyday consumers

Vision

To make blockchain technology understood, accessible, and adopted across Africa without borders.

Mission
To drive mass blockchain adoption by delivering:

- Public awareness and digital literacy
- Campus-focused education and talent onboarding
- Real-world utility demonstrations
- Enterprise and institutional adoption pathways
- Developer, founder, and investor participation

BWB is powered by the Crypto Bootcamp Community, a trusted Web3 ecosystem with:

- **10,000+** active members
- **100,000+** individuals trained across **15+ countries**
- **400+** physical and virtual events delivered globally

Why This Conference Matters

Despite blockchain's growing relevance in payments, identity, trade, and digital ownership, **mass understanding and adoption remain limited.**
For blockchain platforms to scale in Africa, the key challenge is clear:

Educated, trusted, and confident users.

BWB solves this by:

- Demystifying blockchain in simple, practical terms
- Demonstrating real-life use cases
- Providing safe onboarding pathways for first-time users
- Guiding the acquired users to the platforms to begin their journey

Africa has:

- The world's youngest population
- Rapid mobile and digital adoption
- High demand for financial inclusion, transparency, and innovation

Blockchain Without Borders bridges the gap between curiosity and adoption, talent and opportunity, innovation and real-world use.

Event Overview

Format
One-day physical conference + digital engagement

Focus
Education, onboarding, product demos, and ecosystem engagement

Host
Delta State University, Abraka

Core Partner
University Management & Vice Chancellor

Location
Abraka, Delta State, Nigeria

Core Activities

° Keynote sessions by global industry leaders

° Panel discussions on real-world blockchain use cases

° Brand exhibitions, demos, product & innovation showcases

° Live wallet, exchange, and app onboarding

° Hands-on trainings & workshops, career & developer onboarding

° Networking, community building and and experience rooms

Target Audience & Reach

Audience Profile
° University students across all faculties
° Young professionals & graduates
° Developers & tech enthusiasts
° Start-ups & Innovators
° Entrepreneurs & SMEs
° Finance, fintech, and digital economy professionals

Expected Attendance
2,000 – 4,000 participants (physical and online)

Event Objectives

° Introduce blockchain fundamentals to students and the general public

° Showcase practical blockchain applications and utilities

° Onboard new users to sponsor platforms and products

° Expose students to blockchain career paths

° Identify and recruit developer and business talent

° Position sponsors as ecosystem leaders and enablers

Why Sponsor BWBCON

Sponsoring BWB delivers **commercial, strategic, and social returns,** partners gain:

Key Benefits & Strategic Value

° **High-volume user acquisition** and product activation in a trusted environment

° **Live onboarding & direct access** to thousands of young, digitally-native users

° **Brand visibility & trust** across campus, media, and digital channels

° **Thought leadership** through speaking opportunities and ecosystem positioning

° **Direct access to market data & insights** across cities & countries through post-event analytics

° **Talent pipeline access** to Africa's next generation of developers and professionals

° **CSR & impact positioning** in digital literacy, innovation, and youth empowerment

° **Early-market loyalty** from users onboarding their first blockchain platform

° **Long-term ecosystem presence & expansion** through a structured tour

Why Delta State University (DELSU) – Pilot Location

° **30,000+** students across campuses

° **Untapped region of crypto users** with zero blockchain event saturation

° **Proven tech readiness** (Nigeria's first fully online SUG election)

° **Strong innovation culture** and tech communities

° **Regional influence** across the Niger Delta region and beyond

This creates **a first-mover advantage** and high ROI for sponsors.

Expected Outcomes & Impact

After the conference:

° Participants understand blockchain and its real-world applications
° Thousands of new users onboard wallets, exchanges, and platforms
° Sponsors gain leads, sign-ups, long-term users, and brand ambassadors
° Campuses become hubs for blockchain clubs, projects, and startups
