Conclusion

The *"Blockchain Without Borders"* DELSU edition was a vital step in capturing the Delta State student market. We successfully made Dantown the most visible crypto brand in Abraka. While the physical session was a concentrated gathering of core enthusiasts, the massive digital and on-ground awareness has set the stage for long-term user acquisition.

We appreciate the Dantown team for their active participation and for witnessing the raw potential of the DELSU student body. We look forward to converting this massive "spark" into a long-term flame of adoption.

Thank you for your partnership.
